

## **Joint Statement from CARA and IFC Films on The House That Jack Built**

### **FOR IMMEDIATE RELEASE**

December 7, 2018

LOS ANGELES – The Classification and Rating Administration (CARA) and IFC Films have reached a mutually agreed upon resolution to address CARA’s concerns associated with The House That Jack Built, Director’s Cut (unrated) and The House That Jack Built (rated R). IFC Films acknowledges that there was confusion in the marketplace about the rating and has committed to working with CARA to avoid any confusion going forward.

CARA’s ultimate goal is to maintain the trust and confidence of American parents by providing them with accurate, useful information about the level of content in films – and appreciates IFC Films’ cooperation to ensure the proper use of the ratings.
